PUBLIC NOTICE OF APPEAL

TO: All Interested Parties
FROM: S.C. Department of Health and Environmental Control
SUBJ: Harold Boney
P/N# OCRM-98-898
DATE: July 14, 2006

The Department has issued an amendment to the above referenced permit to authorize the addition of a 12' x 13' boatlift to the left of the permitted 8' x 20' floating dock on Battery Creek at 903 Magnolia Bluff in Beaufort County, South Carolina.

Brent Cooper has requested a contested case hearing before the Administrative Law Court.

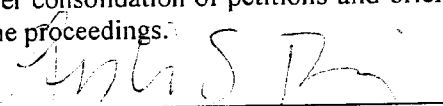

Intervenors: A motion for leave to intervene, with the \$25 filing fee, shall be filed with the South Carolina Administrative Law Court, Edgar A. Brown Building, 1205 Pendleton Street, Suite 224, Columbia, South Carolina 29201, (telephone 734-0550) and served on all parties and shall state the grounds for the proposed intervention, the position and interest of the proposed intervenor, and the possible impact of the intervention on the proceedings. A proposed answer or position in intervention shall be attached to the motion.

Any person may intervene in any pending contested case hearing upon a showing that:

- (1) the movant will be aggrieved or adversely affected by the final order;
- (2) the interests of the movant are not being adequately represented by existing parties, or that it is otherwise entitled to intervene;
- (3) that intervention will not unduly prolong the proceedings or otherwise prejudice the rights of existing parties.

The motion for leave to intervene shall be filed as early in the proceedings as possible to avoid adverse impact on the existing parties or the disposition of the proceedings. Unless otherwise ordered by the administrative law judge, the motion to intervene shall be filed at least twenty (20) days before the hearing. Any later motion shall contain a statement of good cause for the failure to intervene earlier.

A person granted leave to intervene is a party to the proceeding. The intervenor shall be bound by any agreement, arrangement or other matter previously determined in the case. The order granting intervention may restrict the issues to be raised or otherwise condition the intervenor's participation in the proceeding. If appropriate, the administrative law judge may order consolidation of petitions and briefs and limit the number of representatives allowed to participate in the proceedings.

TO ALL INTERESTED PARTIES

July 14, 2006

Beginning July 22, 2006, all permit and amendment applications for critical area permits must be accompanied by drawings produced by one of three professional groups: Registered Land Surveyors, Professional Engineers, or Landscape Architects, all of which must be licensed with the State of South Carolina. Each drawing must be stamped by the licensed professional and must include their license or registration number as well as all required measurements and dimensions. Hand drawings will not be accepted; all drawings must be computer-generated. **Drawings prepared by licensed marine contractors will no longer be accepted.**

All critical area applications received by DHEC-OCRM after 5 PM on Friday, July 21, 2006 must comply with this new application requirement.

SPECIAL NOTES

***DMPs** Dock Master Plans - OCRM is reviewing the listed DMPs for planning purposes only. Permitting decisions will occur when future dock applications are processed by OCRM for individual property owners. This document is used as a planning tool it is not subject to the appeal. OCRM welcomes comments from the public on these planning documents.

****WMPs** Wetland Master Plans – OCRM is reviewing the listed WMPs for planning purposes only. Permitting decisions will occur when future applications are processed by OCRM, which include impacts to freshwater wetlands. This document is used as a planning tool; it is not subject to appeal. OCRM welcomes comments from the public on these planning documents.

*****SWMPs** Stormwater Master Plans – OCRM is reviewing the listed SWMPs for planning purposes only. Permitting decisions will occur when future applications are processed by OCRM. OCRM welcomes comments from the public on these planning documents.

******PERs** Preliminary Engineering Reports – OCRM is reviewing the lists PERs for the purpose of commenting to other sections of DHEC concerning this document. OCRM will not be issuing a coastal zone consistency certification at this time but providing comments. If this proposal moves forward to the permitting process, OCRM would at that time do a full coastal zone consistency review.

PUBLIC NOTICE

Amendment

The permittee for P/N# OCRM-04-331-M, TIM HJORT, has requested an amendment to that issued permit. Specifically, the applicant proposes to extend the length of a permitted walkway from 90' to 200' and relocate the structure 230' downstream of the permitted location. The applicant also proposes to increase the dimensions of the permitted fixed pierhead from 7' x 15' to 10' x 20'. The proposed amendment is for modifications to a private recreational dock on Flounder Lake, at 6528 Ethel Post Office Road, Meggett, Charleston County, South Carolina.

Comments will be received on this amendment request until July 24, 2006. For further information please contact the project manager for this activity, Fred Mallett at, 843-747-4323 ext. 119.

SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE

July 14, 2006

Permit Number: OCRM-06-088-R
Permit ID: 54435

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Town of Mount Pleasant
C/O WPC Engineering, Environmental & Construction Services
1017 Chuck Dawley Blvd
Mount Pleasant, SC 29464

LOCATION: On and adjacent to a tributary of Shem Creek near Pawley Rd, Mount Pleasant, Charleston County, South Carolina.
TMS#: 517-04-00-025

WORK: The work as proposed and shown on the attached drawings consists of making drainage improvements. Specifically, the Town of Mount Pleasant seeks to replace two stormwater control devices associated with Lake Cooper in the Cooper Estates subdivision. Currently, the existing structures are deteriorated beyond repair. New concrete spillways are proposed to enhance stormwater flow during normal conditions and major storm events. These are designed for a minimum 50-year storm event. Phase I of the work at Lake Cooper Dam includes replacing the standpipe system with a new spillway and energy dissipation structure. The concrete emergency spillway at Lake Cooper will remain in place. The project does not represent a new development and pre and post developed site conditions will remain constant. The land disturbance will affect approximately 0.3 acres at the spillway location. The new spillway is designed to maintain the current lake level and water flow. Permanent erosion control features will be installed to dissipate energy. The work as described is for drainage improvements.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before August 13, 2006. For further information please contact the project manager, Tess Rodgers at 843-747-4323 ext. 116.

PERMIT APPLICATION PUBLIC NOTICE**

July 14, 2006

Permit Number: OCRM-06-152-M
Permit ID: 54869

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Wayne Haltiwanger
C/O Waters Deep, Inc.
P.O. Box 12880
Charleston, SC 29412

LOCATION: On and adjacent to Fishing Creek at Lot 125, Foredeck Lane, Edisto Island, Colleton County, South Carolina.
TMS#: 023-00-00-125.

WORK: The work as proposed and shown on the attached plans consists of constructing a dock and an erosion control device. The applicant seeks to build a covered 12' x 12' deck landward of the critical area and attach a 3' x 20' ramp leading from the proposed bulkhead to a channelward 8' x 30' floating dock and 12.5' x 12.5' boatlift. The existing dock will be removed. The applicant also seeks to build a timber bulkhead of a varying height by 581' long with filter cloth placed along an eroding shoreline. The purpose of the proposed activity is for the applicant's private recreational use and erosion control.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

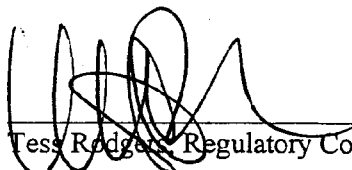

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

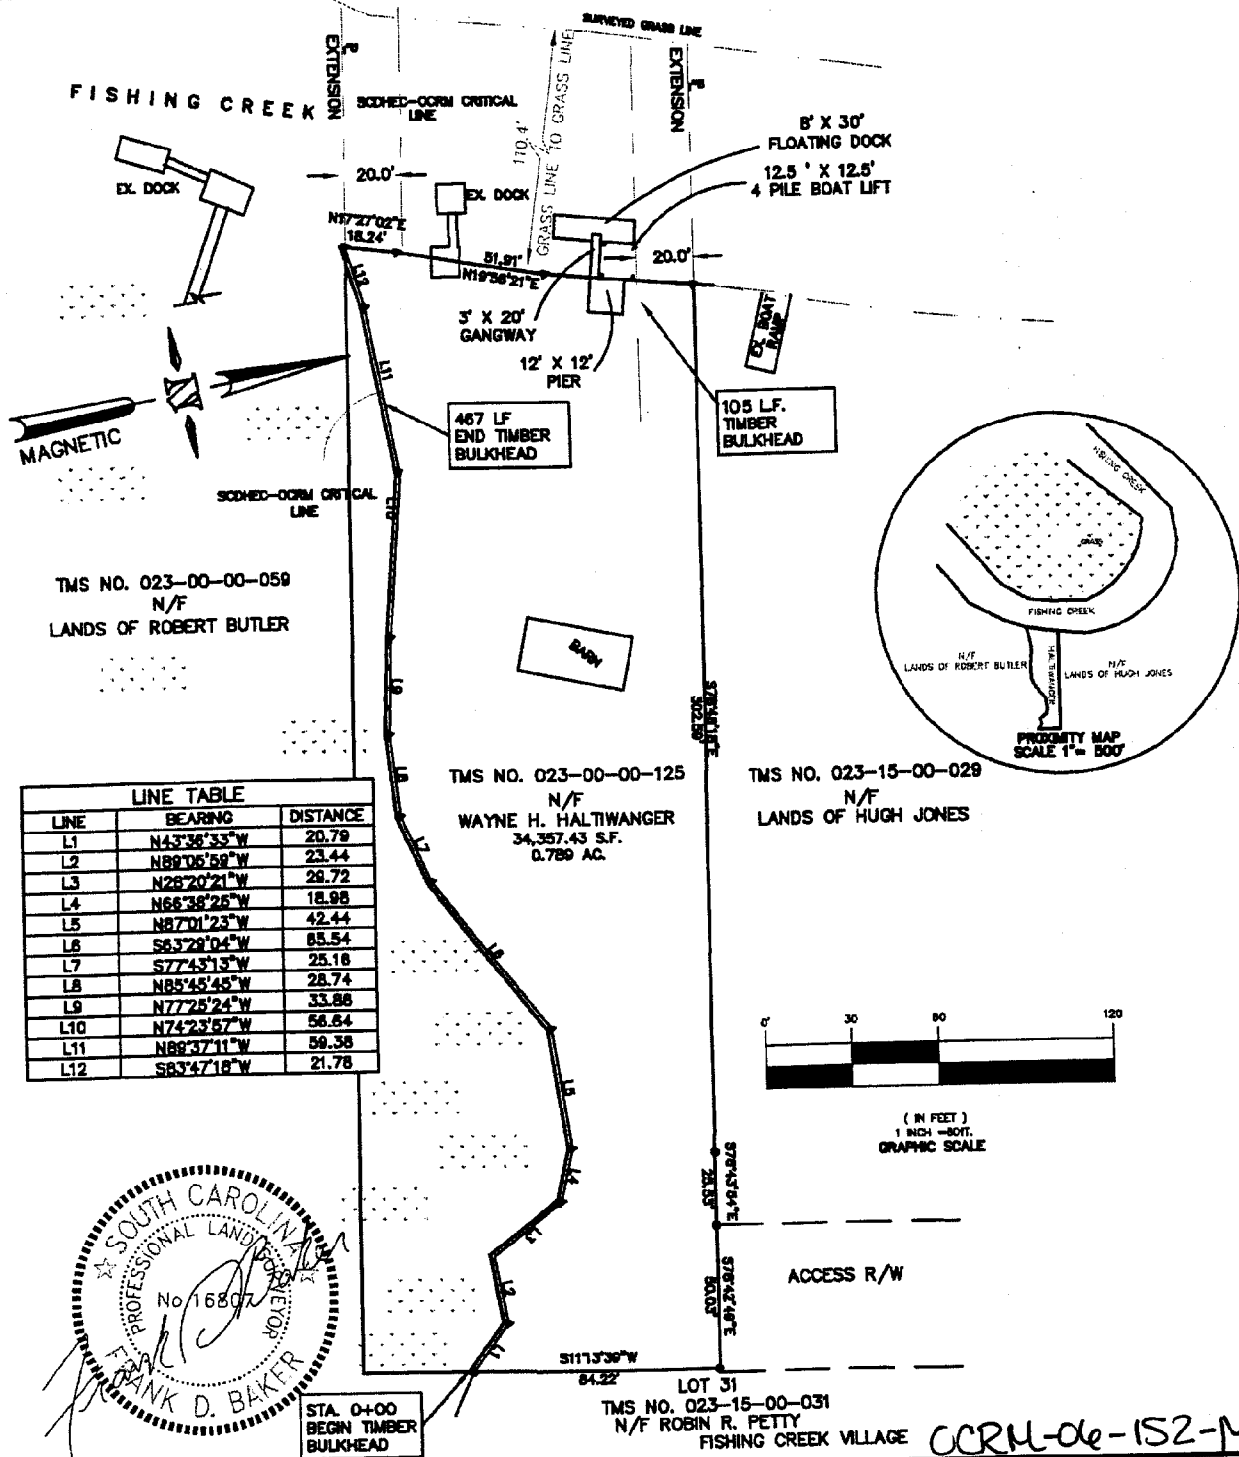

To assure review by OCRM, comments regarding this application must be received by OCRM on or before July 29, 2006. For further information please contact the project manager for this activity, Fred Mallett at 843-747-4323 ext. 119.
